## Languages

Mandarin

Clients rely on Anne for patent prosecution and trademark assistance. With more than 25 years of experience in intellectual property law, Anne has expertise in building and maintaining patent portfolios in the fields of mechanical, electromechanical, and electrical systems, including computer graphics, optical lasers, musical instruments, apparel, cosmetics, and toys.

Anne's physics background is especially attractive to medical device clients. Other areas of strength include interferometers, gas sensors and detectors, amusement park rides, and electro-mechanical devices. She has also procured trademark portfolios for a wide variety of clients in the fashion, cosmetics, solar panels and roofing, food, restaurant, and office products industries.

Anne, who is conversant in Mandarin, also has conducted studies of patents and trademarks in support of infringement actions, enforcement and licensing programs, and due diligence analysis.

Anne has a passion for equestrian sports, having spent more than 20 years in Dressage and English riding. She also enjoys skiing.

## Other Info About Anne

### Experience

Obtained patents to medical catheters, including cardiac mapping and ablation catheters.

Obtained patents to CO and smoke monitors applying nanotechnology.

Obtained patents to surgical drains, implantable devices for tissue monitoring, and devices for laser induced fluorescence attenuation spectroscopy.

Successfully built and policed important trademark portfolios for apparel retailers, food manufacturers and processors, and cosmetics manufacturers.
