Daniel focuses his practice on all areas of intellectual property law. He has worked in various transactional and litigation capacities, including all areas of IP: patents, copyrights, trademarks, and trade secrets. Daniel's patent and transactional experience includes extensive work in the telecommunications, automotive, energy, and smartphone industries. Daniel counsels clients in trademark and copyright matters in a variety of industries.

Additionally, Daniel possesses broad experience in the licensing of intellectual property and software, including negotiating and drafting agreements.

Other Info About Daniel

Experience

Helped a Fortune 500 company prosecute patents related to 4G security protocols and hand-off techniques.

Helped an oil and gas company protect its business and intellectual property from former employees who created a competing entity.

Patented a disruptive real estate tool for a participant on Shark Tank™.

Negotiated and drafted a software license regarding asset management for a railroad provider.

Defended an airline against a plaintiff asserting patents related to payment software.

Negotiated and drafted numerous software agreements for an entity in the automotive and mobility space.
