Data Privacy Detective Podcast – Episode 10 – Cybersecurity & IoT

And so, the security threat arises, and with it, the potential raids on our data privacy. But the IoT risk is far more than a stolen credit card number or a banking loss. The risk is mortal and pervasive.

Your life and a country's electric grid are at risk if a critical device is hacked and the hacker issues a malicious command through the IoT.

In this podcast, we explore the command and control issues within the Internet of Things and the security risk we confront.
