Make Submissions Now for Ohio's New Opportunity Zone Program

The Ohio Development Services Agency (ODSA) has launched a site (https://www.development.ohio.gov/bs/bs_censustracts.htm) to provide a map of eligible census tracts and to allow submissions by interested stakeholders to have certain eligible tracts considered for inclusion in Governor Kasich's recommendations to the U.S. Treasury.

When making a submission through the ODSA portal, you must include contact information, the census tract by number and a brief narrative about economic activity, current or committed, in the census tract being submitted. If you submit more than one tract for consideration then you must provide information for each individual tract and prioritize the tracts being submitted. **Submissions will be accepted until 4:00 p.m. on Friday, March 2, 2018 so interested parties wishing to apply should not delay.**

For more information regarding the new Ohio opportunity zone program, please contact [Colleen Haas](#) or [Marty Mooney](#) of Frost Brown Todd's [Lending & Finance Practice Group](#) and the [Tax Law Practice Group](#) for *Tax Law Defined™*.
