Women Inc. Magazine ranked Frost Brown Todd (FBT) one of its “Top 100 Law Firms for Women.” The magazine’s editorial staff selected firms based on factors including recruitment and community outreach, firm prominence and prior recognition. Led by chairperson Kimberly Mauer, FBT’s Women’s Initiative works toward an inclusive environment where everyone has an equal opportunity to succeed. FBT supports and promotes individuals on alternative work schedules, supports targeted marketing to connect female attorneys with female clients, and provides mentoring programs giving female lawyers access to colleagues who will help them advance at the firm. For more information, visit the [Women’s Initiative page on FrostBrownTodd.com](#).

“At Frost Brown Todd, we work hard to minimize unconscious bias in our systems that gets in the way of gender equality,” said Mauer. “We are honored that Women Inc. recognizes those efforts. While there is always more work to do, this affirms we are moving in the right direction.”

In addition to the Women Inc. award, the Women in Law Empowerment Forum (WILEF) recognized FBT as a seven-time “Gold Standard law firm” in 2019.
