Frost Brown Todd Named to The Top 50 Construction Law Firms™ list by Construction Executive

Frost Brown Todd (FBT) has earned top honors as one of the best construction law firms in the country. Construction Executive ranked FBT among *The Top 50 Construction Law Firms™* in 2023. The winners are selected from more than 600 U.S. law firms. Qualified law firms are selected based on various factors, including their construction practice's revenue, the number of attorneys in the practice, the percentage of firm revenue from the construction practice, states in which the firm is licensed to practice, the age of the practice, and the number of construction industry clients.

"It is a great honor to be recognized as one of *The Top 50 Construction Law Firms™* by Construction Executive," said John Higgins, who leads FBT's Construction practice group. "These rankings are the place where businesses in the construction industry can go to ensure they are working with a firm that not only provides top legal services but understands the needs specific to their industry. That is the foundation of Frost Brown Todd's practice."

This is the second time FBT has been ranked in the top 50 by Construction Executive. FBT's growing construction practice is made up of more than two dozen attorneys across the firm's 16 offices who focus on everything from public-private partnerships to contract documents, construction defects, dispute resolution, and M&A transactions. The group aims to help developers, owners, contractors, and subcontractors minimize risks, protect legal rights, and preserve the bottom line.
