Frost Brown Todd Expands its Business Litigation Practice with the addition of Partner Josh Burgener in Nashville

Frost Brown Todd (FBT) has strengthened its business litigation practice with the addition of Josh Burgener as a partner in its Nashville office. A well-respected commercial litigator, Burgener has extensive experience in the courtroom, as well as in litigation assessment and avoidance. Coupled with his strong relationships in the Nashville area, Burgener's vast experience will help solidify FBT's business litigation presence in Nashville and beyond.

"Josh brings to Frost Brown Todd extensive experience advising on trade secret and non-compete suits, contract claims, lease disputes, business torts, and more. His experience in these areas will be a tremendous asset to our clients and our firm. We look forward to the contributions he will make as we continue to grow and expand our services and further commit to the Nashville market," said Peter Cummins, Chair of FBT's Business Litigation practice group.

Burgener advises clients on complex commercial and business litigation, employment disputes, class action litigation, and real estate litigation. He also handles trade secret and non-compete suits, contract claims, legal disputes, and business torts.

"I'm excited to join a firm that has strong roots in Nashville, fosters a culture of collaboration, and focuses on key industries, including manufacturing, energy, and finance. These three pillars align with my practice and will benefit my clients. I look forward to contributing to Frost Brown Todd's continued growth," said Burgener.

Burgener earned both his bachelor's degree and his Juris Doctor from Vanderbilt University and has been recognized by Super Lawyers®, Best Lawyers in America®, Benchmark Litigation, The Legal 500 United States, and Nashville Business Journal's 40 Under 40.
