Table of Experts: Manufacturing in the Age of Uncertainty

FBT, in partnership with the Houston Business Journal, presented a panel discussion on the current state of manufacturing against the backdrop of escalating trade tensions and high tariff rates as manufacturers look to diversify production beyond China and tap into nearshoring opportunities with even greater urgency.

Despite these headwinds, panelists expressed optimism about manufacturers' ability to adapt to this new reality through legal foresight, supplier diversification, and other tariff-mitigation strategies. The prevailing consensus was that U.S. manufacturing will prove resilient and emerge even stronger as a result.

Read key takeaways from our "Manufacturing in the Age of Uncertainty" panel on the Houston Business Journal website or watch it in full below.

FBT Houston Partner Mary London Fuller moderated the "Manufacturing in the Age of Uncertainty" panel, which featured the following attorneys from our manufacturing industry team: Eric Baker, Patricia Burgess, and Jan de Beer.
