The New Jersey Election Law Enforcement Commission (NJELEC) [announced that](#) effective January 1, 2025, campaign contribution limits will increase for all non-gubernatorial candidate committees, political committees, continuing political committees, legislative leadership committees, and political party committees. The Elections Transparency Act ([P.L. 2023, c. 30](#)), signed into law in April 2023, requires NJELEC to adjust for inflation the contribution limits for non-gubernatorial candidates and committees every two years. The following chart provided by NJELEC shows the new contribution limits that are now in effect.

This is the first time that NJELEC has adjusted for inflation non-gubernatorial candidates and committees. Contribution limits for gubernatorial elections, along with thresholds related to the Gubernatorial Public Financing Program, have been subject to inflation adjustment every four years since 1992.
