FBT Gibbons Co-Managing Partner Peter Torcicollo Featured in Invest: NJ on Issues Facing New Jersey's Economy

[Peter J. Torcicollo](#), FBT Gibbons' co-managing partner, was featured in the sixth annual *Invest: New Jersey*. The issue features an in-depth review of the key issues facing New Jersey's economy, including the insights of prominent business and regional leaders.

"Our development clients are still building, our transactional and M&A work is robust, and our litigation practices are active," Torcicollo says.

Torcicollo emphasizes that the current lower-interest rates lead to more consumer spending, which leads to a healthier economy — benefitting business across the state.

"Beyond that, some exciting infrastructure projects are happening in New Jersey and New York," he adds. "We're fortunate to be involved in some high-profile developments, which makes this an exciting time for our firm."
